

COOL *Comfort,* HOT *Savings!*

RIDE OUT THE SUMMER HEAT AND SAVE WITH OUR HVAC REBATE

As summer reaches its peak, your HVAC system becomes one of the most essential and hardworking appliances in your home. However, if your system is outdated or operating inefficiently, it may struggle to keep your home comfortable while significantly increasing your energy bills, especially during the extreme heat of August.

Southeastern Indiana REMC understands the importance of maintaining a cool and comfortable home without breaking the bank. To support our members, we offer rebates that help reduce the financial burden of upgrading to a new, energy-efficient heat pump system. Whether you are replacing an aging unit or considering a dual fuel system, our rebate program is designed to promote smart energy choices that enhance both comfort and affordability.

We provide three rebate tiers to meet a variety of system types and household budgets. This flexible structure allows members to choose the option that best fits their needs while taking an important step toward greater energy efficiency. Southeastern Indiana REMC is proud to offer support that helps you stay cool, save energy and make lasting improvements to your home.

REBATES BUILT FOR YOU

We offer three rebate tiers to help meet your budget and efficiency goals:

TIER 1 \$300 Rebate

SEER2 rating 14.3 – 15.3

HSPF2 rating \geq 7.5

TIER 2 \$400 Rebate

SEER2 rating 15.4 – 17.2

HSPF2 rating \geq 7.5

TIER 3 \$500 Rebate

SEER2 rating 17.3 & up

HSPF2 rating \geq 7.5

Upgrading your HVAC system not only improves your home's comfort, it also opens the door to meaningful savings. With Southeastern Indiana REMC's rebate program, staying cool during the summer heat has never been more rewarding. Take advantage of this opportunity to enjoy cool comfort and hot savings—visit our website today to learn more and apply for your rebate.
