

## BREAKING BOUNDARIES WITH FASTER, SMARTER INTERNET

Southeastern Indiana REMC is excited to announce new fiber internet options designed to keep you more connected than ever before. With more people working from home, streaming their favorite shows, gaming online, and managing smart home devices, reliable high-speed internet is no longer optional—it's essential.

That's why we're expanding our SEI Fiber lineup with a brand-new package, more value for our Premium plan, and flexible options for every household. Whether you're looking for lightning-fast speeds or dependable everyday service, SEI Fiber has a solution to fit your lifestyle.

### Introducing: The 2-Gig Platinum Package

Need the absolute fastest internet available in our service area? Our new 2-Gig Platinum package delivers blazing speeds for the ultimate online experience. Perfect for households with multiple heavy users, serious gamers, or anyone who simply wants the best of the best.

- **\$149.95/month** standard price
- **\$109.95/month** with a 2-year contract
- Includes a **free Wi-Fi mesh extender** for whole-home coverage

With 2-Gig speed, buffering, lag, and dead zones become a thing of the past.

### More Value with the 1-Gig Premium Package

Our 1-Gig Premium package continues to be a member favorite—and now, it's even better. Anyone who signs up for or upgrades to Premium will receive a free Wi-Fi mesh extender, ensuring that your connection reaches every corner of your home.

- **\$109.95/month**
- **Free Wi-Fi mesh extender** included

## Smart Solutions for Every Home

Not every household needs gigabit speeds, and SEI Fiber offers affordable solutions for families who just want reliable service for streaming, browsing, and connecting.

- **Basic (100 Mbps)** – \$64.95/month
- **Plus (500 Mbps)** – \$79.95/month

With either of these plans, you can add a **Wi-Fi mesh extender for only \$15/month**. This ensures that even modest packages deliver consistent coverage throughout your home.

## Why a Wi-Fi Mesh Extender Matters

Think of a mesh extender as your home's Wi-Fi amplifier. It spreads your signal across multiple access points, eliminating frustrating dead zones. That means:

- Seamless coverage for large or multi-level homes
- Smooth streaming for movies and gaming
- Stronger connections for smart home devices

With our new offers, better coverage is built in.

## The Cooperative Difference

At Southeastern Indiana REMC, our mission goes beyond providing electricity and internet—we're here to improve quality of life across our communities. Expanding SEI Fiber and introducing new speed packages ensures that families, students, and businesses in southeastern Indiana have access to the same digital opportunities as those in larger cities.

Every new connection is an investment in our region's future, creating stronger homes, smarter schools, and more resilient communities.

**Upgrade today and experience the difference.**
