

Home for the Holidays

LIGHT PARADE

SEI REMC helped spread Christmas cheer this season by sponsoring and participating in the annual Home for the Holidays Light Parade. Employees came together to decorate one of our bucket trucks and a trailer with bright, festive lights, turning our equipment into a rolling display of holiday spirit.

On parade night, several employees and their families bundled up, hopped onto the trailer, and handed out candy to those lining the streets. Despite the chilly weather, smiles were everywhere as the community gathered to celebrate the season.

We are proud to support this tradition each year and grateful for the chance to bring joy, light, and connection to our members during the holidays. Moments like these remind us of the power of community and the heart behind everything we do at SEI REMC.
