

CONTROL HOME COMFORT FROM ANYWHERE WITH **SEI FIBER**

Traveling this summer? Whether you're off on a weekend getaway or planning an extended vacation, SEI Fiber helps you stay connected to what matters most, your home. With our reliable high-speed internet, you can manage smart devices from anywhere, giving you control, peace of mind and energy savings while you're away.

SEI Fiber supports a wide variety of smart home systems, from thermostats and security cameras to lighting and irrigation. Heading out the door but forgot to adjust the thermostat? Log in and make the change with a tap. Want to check in on deliveries or monitor your driveway? Real-time camera access gives you eyes on your home no matter where you are.

Not only can you monitor and manage your home, but SEI Fiber's fast, stable connection ensures smart devices respond quickly and reliably. This means no lag when adjusting your thermostat, turning lights on and off or getting motion alerts. And for those looking to make their homes even smarter and

more energy-efficient, SEI REMC offers thermostat programs tailored to your needs.

Our Smart Thermostat Program provides eligible members with a free ecobee3 lite thermostat, making it easier than ever to control your home's temperature remotely. We also offer Connect to Save, an energy-saving program that rewards you for allowing small temperature adjustments during peak demand times. These programs are designed to enhance your comfort, lower energy use and offer rewards just for participating.

With SEI Fiber, you're not just staying connected to the internet; you're staying connected to your peace of mind. Travel with confidence knowing your home is just a click away.

Ready to experience the convenience of a connected home? Visit seiremc.com to learn more about SEI Fiber plans, smart thermostat incentives and availability in your area.
